## **DETAILED ACTION**

Non-Final Rejection

### **Election/Restriction**

1. Applicant's election with traverse of Invention I and claims 1-9 is acknowledged.
2. Claims 10-11-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected inventions and/or species, there being no allowable generic or linking claim.
3. During a telephone interview with Mr. Naber the election was further amended and elected Fig 1.

The requirement is still deemed proper and is therefore made FINAL.

### **Claim Rejections - 35 USC § 112**

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 1-9, as best understood, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-9 are confusing and are not clear because claimed limitations are not shown clearly in the figures and/or lacks support in the specification and therefore fails to particularly point out and distinctly claim the subject matter which applicant regards as the invention. These limitations must be clearly shown or the feature(s) canceled from the claim(s). Applicant is requested to go through the figures and/or the application and ensure that the claimed matter has been described in the specification and shown in the drawing in such a way as to convey to one skilled in the art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Correction is required.

**Claim Rejections - 35 USC § 102**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-5, 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Norton (4,950,017).

Regarding claims 1-5, 8, Norton (4,950,017) discloses in Fig. 1-8 the invention as claimed to include an all terrain vehicle comprising a front bulkhead 7 attached to a forward area of the vehicle and a canopy frame 20; a retractable shield 24; a rear bulkhead 14; and a storage unit 8.

**Claim Rejections - 35 USC § 103**

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9 KBL  
Claims 6-7, ~~8~~ are rejected under 35 U.S.C. 103(a) as being unpatentable over Norton (4,950,017) in view of Robichaud (Re. 31,465).

9 KBL  
Regarding claims 6-7, ~~8~~, Norton (4,950,017) discloses the invention as claimed.

However, Norton (4,950,017) does not disclose a sleeper.

Robichaud (Re. 31,465) discloses in Fig 1-22 a sleeper.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the invention, as disclosed by Norton (4,950,017), to include a sleeper, as disclosed by Robichaud (Re. 31,465), to provide sleeping area for an occupant and conceal the occupant.

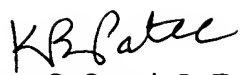

### **Conclusion**

The prior art made of record in attached Notice of Reference Cited (PTO-892) and not relied upon is considered pertinent to applicant's disclosure. This art of record shows various features similar to the applicant's invention.
